Prométhée Earth Intelligence enters exclusive negotiations with geospatial services company Trigger's Reports

Paris, 14 October 2025 — Prométhée Earth Intelligence announces the opening of exclusive negotiations with a view to acquiring Trigger's Reports, a company specialising in geospatial services with a solid footprint on the African continent.

A strategic combination with strong synergies

This operation is fully aligned with Prométhée Earth Intelligence's international development strategy.

It will enable the company to:

- accelerate the deployment of **geointelligence solutions**;
- enrich **Prométhée Earth Intelligence's catalogue** with advanced and field-proven tools;
- leverage **commercial synergies** between the two companies, particularly in African markets.

“This combination marks a key milestone in strengthening our operational geointelligence capabilities and expanding our private-sector client portfolio. By integrating Trigger's Reports' expertise and tools, Prométhée Earth Intelligence strengthens its operational capabilities and consolidates its international footprint, particularly in Africa. This combination enables us to offer our clients immediately usable geointelligence solutions to address their environmental and security challenges,” said **Olivier Piepsz**, President of Prométhée Earth Intelligence.

An opportunity for Trigger's Reports

“This combination represents an opportunity for our company to become part of broader solutions by complementing Prométhée Earth Intelligence's range of services and its client portfolio, particularly in Africa. This win-win integration provides a new engine for growth for the company,” said **Morgan Hanin**, President of Trigger's Reports.

About Trigger's Reports

Driven by Morgan Hanin, the Trigger's Reports platform, which uses Copernicus data, democratizes and simplifies access to billions of previously complex data points, transforming them into clear and actionable data for sustainable resource management and optimized territorial planning. A visionary and committed entrepreneur, Morgan Hanin positions Trigger's Reports as a leading player in the digital and environmental sovereignty of the African continent.

Its ambition is to turn simplified Earth observation into a strategic lever for public and private decision-making. Thanks to an accessible and scalable technology, Trigger's Reports is driving a new generation of satellite-based solutions serving sustainable development and climate resilience.

About Prométhée Earth Intelligence

Prométhée Earth Intelligence is the leading French NewSpace operator for near-real-time Earth observation, working for a better and safer world.

PROMÉTHÉE Earth Intelligence addresses crisis management and sustainable development challenges by providing strategic intelligence and environmental intelligence services.

The scope of application offered by PROMÉTHÉE Earth Intelligence is virtually unlimited — from maritime surveillance and critical infrastructure monitoring, to the protection of ecosystems, water resources, wildlife and plant life, the fight against deforestation and illegal fishing, and the prevention of natural disasters.

Founded in January 2020, Prométhée Earth Intelligence has received backing from the French government, the public investment bank Bpifrance (BPI) and the French Space Agency (CNES). A member of the French Aerospace Industries Association (GIFAS), it has entered into partnerships with more than 50 French and European companies. Its first satellite was launched on 11 November 2023.
